

## ENVIRONMENTAL POLICY

Piling Contractors aim to identify and minimise any adverse impacts that our activities may have on our environment whilst undertaking foundation and ground improvement works, maintaining piling plant and equipment and associated administrative tasks.

In order to achieve this objective, Piling Contractors will:

- Establish, monitor and review achievement of environmental objectives and targets
- Remain committed to maintaining its Environmental Management System in accordance with the ISO 14001:2004 standard.
- Monitor conformance to; and continually improve our Environmental Management System
- Communicate the Environmental Policy and Management System requirements to all staff and other interested parties.
- Consult with staff, suppliers, clients, business partners and any other interested parties on pollution prevention strategies.
- Identify and comply with relevant Commonwealth, State, Territory and local legislative requirements at each of our workplaces
- Identify environmental aspects and impacts of our workplaces and processes, formulate appropriate control measures and allocate responsibility for implementation and review.

Piling Contractors considers that the involvement and personal commitment of all individual employees is fundamental to establishing and maintaining high standards of environmental protection.
